We are sorry we will not be able to make the meeting on June 7. It is nice to see the village growing and improving. We do have a concern about traffic and parking for an establishment that size. We would not like to see the street congested with cars unable to park and with traffic tie ups. We are asking that the Planning Commission follow the law and assure that the consultant study and parking report is completed and available for public comment before any actions are taken on the proposal. We would ask that the Planning Commission also address inconsistencies in the traffic data.

Thank you,
